SUMMARY

Self-taught Front-End Developer with 8+ years of working experience. Beginning as a hobby, I have developed 200+ unique web applications, focusing on clean, maintainable code.

EXPERIENCE

Front-End Developer, Calibrate Marketing

Jul 2020 — Present

Calibrate is an Auckland based digital agency focused on delivering pragmatic strategies for driving growth.

- Independently worked on front-end for 20+ projects, while closely collaborating with the team to ensure good workflow.
- Come up with solutions to seemingly intractable problems.
- Wrote unique Boilerplate using Sass and HTML for clean, efficient, maintainable code.
- Support and development of new functionality for all projects.
- Experience working in a remote team environment.

Front-End Developer, Freelance

Aug 2013 — Jul 2020

- Create fully responsive and modular websites while maintaining compatibility with all modern browsers and devices.
- Work independently and collaboratively developing diverse web applications from scratch.
- Create unique JavaScript and jQuery plugins, enhancing the overall user browsing experience.
- Develop and design multiple fully responsive WordPress themes.
